I have subscribed to XM radio for 4 years. I listen to it every day while driving to and from work, from Oxford, Mississippi, to Memphis, Tennessee. It provides a wide range of news that I cannot see or hear anywhere else. It provides an incredible variety of music that is not available on broadcast radio. Now, XM offers real-time weather and traffic reports. I look forward to the time when Memphis will be added to the list of cities for which those reports are available. I respectfully urge the FCC to reject the NAB's petition 04-160 and to XM to continue to provide its wonderful, unique and varied programming on static free satellite radio. LET FREE SPEECH LIVE!

Sincererly yours,
Dick Burkepile
Oxford, Mississippi
